### **About Eargo**

Eargo is a medical device company dedicated to improving the quality of life of people with hearing loss. Our innovative products and go-to-market approach address the major challenges of traditional hearing aid adoption, including social stigma, accessibility and cost. We believe our Eargo hearing aids are the first ever virtually invisible, rechargeable, completely-in-canal, FDA-regulated, exempt Class I or Class II devices indicated to compensate for mild to moderate hearing loss. Our differentiated, consumer-first solution empowers consumers to take control of their hearing. Consumers can purchase online or over the phone and get personalized and convenient consultation and support from licensed hearing professionals via phone, text, email or video chat. The Eargo device is offered to consumers at approximately half the cost of competing hearing aids purchased through traditional channels in the United States.

Eargo's sixth generation device, Eargo 6, is an FDA Class II exempt hearing device featuring Sound Adjust technology that automatically optimizes the soundscape as the user moves between environments. Eargo 6 is available for purchase [here](#).
